Key Features of the
New Generation Personal Pension

The Financial Conduct Authority is a financial services regulator. It requires us, Aviva Life & Pensions UK Limited, to give you this important information to help you to decide whether our New Generation Personal Pension is right for you. You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference.

Statement of demands and needs
A New Generation Personal Pension is a great way to save for your life after work. It meets your demands and needs for a pension as the government has required your employer to enrol you into a pension scheme as you meet the eligibility requirements. This means you will have a pot of money to help support you when you retire. Your employer sets up your New Generation Personal Pension and arranges for your regular payments to go directly from your salary to your pension, meaning you don't have to do anything. With money going in every month, you will gradually build up your pot over your working life.

Please read this document with the enclosed illustration. Where relevant information is contained in other documents these will be signposted at the appropriate point. You need to be comfortable that you understand the benefits and risks of this plan before deciding whether to invest. The purpose of this document is to help you to make an informed decision. However, we recommend that you seek professional financial advice before you make any decisions about this plan.

This document is aimed at someone taking out a new plan.
You will read references to ‘us’ or ‘we’. This means Aviva Life & Pensions UK Limited, the provider of your plan.

What is the New Generation Personal Pension?

The New Generation Personal Pension is a group personal pension scheme. The scheme is a collection of individual personal pension plans arranged by an employer for their employees. It is designed on a group basis so that it is easier to administer. Each individual plan is a long-term investment plan designed to help an employee invest for their retirement.

How does the New Generation Personal Pension work?

It’s a plan to help you save for your retirement.

It can accept contributions from you and your employer.

It’s portable, so you can take it with you and carry on making contributions even if you leave your current employer.

Through this plan you can invest in one or a number of different types of assets which tend to fall into four main categories: Shares, Property, Money Market and Fixed Interest. Please see your investment/fund literature for further information.

It is a unit-linked plan. We divide each fund into units and your contributions buy units in the funds you choose. The price of the unit depends on the value of the investment fund.

We work out the value of your plan based on the total number of units you have in each fund. As the unit price goes up and down, so will your plan value. If you have been given access to and decide to invest in the Aviva Life & Pensions UK Limited FP With-Profits Sub-Fund, the value of your plan depends on the unit price and, if leaving the fund, the application of any final bonus or market value reductions.

Is the New Generation Personal Pension right for me?

This plan might be right for you if:

- you want to invest for your retirement
- you are aged 16 or over
- you are under age 75
- you can afford the contributions due
- you are prepared to keep your funds invested until you are eligible to take benefits

- you have considered any other pension plans that your employer may offer
- If you haven’t been able to save much and can’t afford to save much as you approach retirement, you should consider seeking financial advice before starting a pension plan. The pension income you receive in retirement could affect your entitlement to means-tested state benefits.

Giving you more information

This document gives you a summary of information to help you decide if you want to join the New Generation Personal Pension.

You should also read and keep safe:

- the information you have received about automatic enrolment
- the ‘How contributions are invested’ brochure
- the illustration that shows how much you may get in the future

You should contact us if you’ve not received any of the above.

After we have invested contributions into your plan, we will refer you to our investment guide. This gives details of the available investment funds should you wish to make your own investment choices. If you need a copy beforehand, please contact us.

If you would like further information about the New Generation Personal Pension, please see the Terms and Conditions.

Its aims

- To build up a sum of money in a tax efficient way to provide pension benefits.
- To provide benefits on your death to your dependants and beneficiaries.

Your commitment

- For you to make regular contributions to your plan.
- Your employer may also contribute into your plan. This may be dependent on you paying a minimum level of contribution.
- To understand that funds remain invested until you decide to take your benefits. You cannot normally take these benefits before age 55. Under this plan, you must decide before your 75th birthday on the type of benefits you wish to take.
- To tell us if you stop being eligible for tax relief on your contributions. For example, if all your pension contributions in a tax year are greater than your earnings for that tax year.
● You will pay any contribution required to ensure that total contributions to your plan are at least equal to the minimum levels required under automatic enrolment regulations.
● To review your plan regularly to ensure your investment fund(s) still meet your needs.
● To tell us if you have flexibly accessed your money purchase pension savings.

Risks
● We can’t guarantee what your plan will be worth in the future. The value of investments in your plan can go down as well as up and you may get back less than the amount paid in.
● The level of benefits you could get at retirement may be less than shown in an illustration. This could happen for a number of reasons. For example, if:
  - you and/or your employer reduced or stopped contributing to your plan, even if contributions are subsequently restarted
  - investment performance has been lower than assumed
  - charges have been higher than assumed
  - you choose to take your benefits before your selected retirement date
  - the rates used to calculate your benefits may provide a lower pension income than those assumed in the illustration. This might be because:
    ● interest rates when you retire are lower than illustrated (only relevant where an annuity is selected), or
    ● life expectancy when you retire is greater than that assumed in the illustration
  - tax rules change. The tax information provided here is based on our interpretation of current legislation, which is subject to change and individual circumstances.
● The investment solution into which contributions are automatically invested may not be suitable for you. Please see the ‘How contributions are invested’ guide for more information.
● The investment funds available to you carry different levels of risk and invest in different types of investments, including stocks and shares. The value of some funds will go up and down more than others. Please see the investment/fund literature for more information.
● Some of the funds in which you can invest may carry additional risks because of the types of asset they hold. For instance, the value of funds that invest overseas may fall and rise due to changes in exchange rates, funds that invest in emerging markets may not be regulated as strictly and it may be harder to sell these assets, there may be a delay in accessing your money if you invest in property. There are other risks which could affect the performance of the funds that you invest in. Please see the investment/fund literature for more information.
● If you have been given access to and decide to invest in the Aviva Life & Pensions UK Limited FP With-Profits Sub-Fund, there are different risks that may affect the value of your plan. Please read our ‘With-Profits Summary’ at https://library.aviva.com/cfppfmpfp.pdf for more information about the risks involved.
● Inflation will reduce the spending power of your pension benefits.

Questions and answers
1 Can I opt out of the scheme and cancel this plan?
● Yes, after joining you have the right to opt out of your employer’s pension scheme and receive a refund of contributions as set out below.
● You cannot signal your intention to opt out before you have joined the scheme.
● You only have one month after joining the scheme in which to let us, or your employer, know if you wish to opt out. You will be advised in writing of the dates between which you can opt out when you join the scheme.
● If you opt out within this period, we will refund all regular contributions we have received to your employer. Your employer will refund to you any contributions you’ve paid.
● If you don’t opt out within this period, your plan will continue as set out in these Key Features and the Terms and Conditions. Any contributions received will not be refunded.
● The notice given to you by your employer tells you how to opt out. Alternatively, call us on 0345 602 9221 to request an opt-out form.
● If a lump sum payment - either a single contribution or a transfer of benefits from another scheme - has been paid in and you opt out within your opt-out period, we will refund the amount received less any fall in value that has occurred before we receive the earlier of:
  - confirmation of your opt out from your employer, or
  - your written notice that you wish to cancel your payment.
This means you may get back less than you invested.
Key Features of the New Generation Personal Pension

To avoid any delay that may occur if your employer does not tell us promptly that you have opted out and to help reduce the risk of your investment falling in value, write to us at Aviva, PO Box 1550, Salisbury SP1 2TW to cancel your payment at the same time you decide to opt out. You will still need to send your opt-out notice as notified by your employer.

We will return the payment to whoever paid it to us. Note: if the contribution is a transfer, the transferring scheme may not accept it back. You would either have to leave the transfer payment with Aviva or transfer to another provider.

Can I change my mind if I pay in a lump sum?

- Yes. If you pay a lump sum contribution, you have 30 days in which to change your mind, beginning from the date that you receive our confirmation that your payment has been invested.

- You must notify us in writing at Aviva, PO Box 1550, Salisbury SP1 2TW in the 30-day period if you wish to cancel your lump sum payment.

- If you cancel, you will receive the value of your lump sum contribution unless the investment value has fallen. In which case, you will get the value of your investment at the date we received your cancellation instruction. We will return the contribution to whoever paid it to us.

- If you don’t cancel within this period, the payment will remain invested in accordance with the terms of your plan and will not be refunded.

- Cancelling your lump sum payment does not opt you out of your employer’s pension scheme.

- Please refer to our ‘Key Features of the New Generation Personal Pension – Transfer Value Account’ for details of the cancellation rights that apply to any transfer payments you may make into your plan.

2 How can I contribute to my plan?

What contributions can I make?

- Contributions can be either:
  - a fixed amount, or
  - a fixed percentage of your earnings so your contributions increase automatically in line with your earnings.

- Please speak to your employer if you are unsure about contribution levels.

- Your employer will deduct your contributions from your earnings and send them directly to us. There may be a delay before contributions are paid from your employer to us. For example, your employer may wait until the end of your opt out period before paying contributions to us, in case a refund of contributions is required.

- Contributions will be invested when we receive them from your employer, in accordance with the Terms and Conditions.

- You can pay in lump sums (subject to minimum amounts). Please contact us for details of these amounts.

- Please see the Terms and Conditions for more details about contributions into your plan.

Can I stop or vary contributions?

- Yes, you can stop or vary contributions at any time. However, you should note that:
  - fewer and/or reduced contributions will reduce the fund available at retirement
  - as long as the plan stays invested, charges will be taken from it. If the plan has not been in force for long or its value is small, the ongoing charges may significantly reduce the future value of the fund and there is a possibility that the value will reduce to zero.
  - if you reduce contributions to below the minimum levels required under automatic enrolment regulations, and you remain in employment, your employer will re-enrol you into the scheme approximately every three years
  - any employer’s contributions may automatically stop if you stop making contributions

Can I restart contributions?

- Yes, you can start contributing to the plan again at any time, provided you are still eligible to do so.

- If you are considering stopping, varying or restarting contributions, please request an illustration from us.

Can I transfer other pension plans into the New Generation Personal Pension?

- If you have a pension plan with another pension company, you may be able to transfer its value into a transfer value account within this plan. There is no guarantee that doing this will increase your total benefits. There may be a charge for doing this and you should seek professional advice from a financial adviser. Please see our ‘Key Features of the New Generation Personal Pension – Transfer Value Account’ document for more details.

- It isn’t possible to transfer any pension credit from a divorce or dissolution of a civil partnership into this plan.

Are there any risks specific to making a transfer payment?

- Transferring pensions is not right for everyone. It can be a complex decision and you need to consider and compare the features, fund ranges, any valuable benefits that may be lost and any tax implications.

- We don’t charge to accept a pension transfer, but there may be a charge from your existing pension provider if you transfer your pension from them.
When you make a transfer payment there will be a period when you are not invested – this is known as ‘out of market exposure’. This period lasts for as long as it takes for your previous pension provider to transfer the cash value of your pension to us. This means you may miss out on any potential growth while the transfer is taking place.

Once a transfer payment has been made, you won’t have any rights to benefits under your previous pension arrangement. You may be giving up:

- a guaranteed pension income or one that is linked to your earnings when you left the company;
- guaranteed annuity rates, which could provide you with a higher level of income than may be offered on the open market;
- increases in the value of your pension before and after you retire;
- scheme benefits which your dependants would receive if you die before or after you retire;
- any loyalty bonuses;
- possible entitlement to additional bonuses if you’re currently invested in with-profits. You may also have a market value reduction applied when you leave the with-profits fund which would reduce the value of your benefits;
- tax-free cash sum rights that may be protected at a higher level than could be provided under this plan;
- possible entitlement to take benefits from your previous pension arrangement earlier than age 55.

The charges applied to your previous arrangement may be lower than the charges applied to this plan.

There could be a reduction applied to the value of your previous arrangement when transferring your benefits.

The benefits you receive from this plan could be less than those you would have received from your previous arrangement. In particular, if you are close to retirement you have less potential to achieve sufficient growth for this plan to provide greater benefits.

Many occupational pension schemes which were contracted out of the State Second Pension and/or the State Earnings Related Pension Scheme had to provide guaranteed benefits which replaced these state benefits. Any replacement benefits under this plan are not guaranteed.

If you transfer into this plan from a defined benefit pension scheme or other pension scheme that offers guaranteed benefits, your replacement benefits under this plan are not guaranteed.

If you have any doubts whether this transfer is appropriate for your needs, you should contact a financial adviser.

If you don’t have a financial adviser, you can find one at www.unbiased.co.uk. You will be charged for this advice. In some cases, you must take independent financial advice before you can transfer your benefits.

3 Where can I invest my contributions?

Where are contributions into my plan invested?

When you join the pension scheme, contributions received by us will be paid into the investment solution chosen by your employer. This investment solution will be used to invest all contributions made to your plan. The investment solution may include an investment programme designed to manage your investments. If so, the investments, the charges and the risk profile of the investment solution may vary. Please see the ‘How contributions are invested’ guide and the Terms and Conditions for more information.

Once the first contribution collected by your employer has been invested by us you can, if you wish, make your own investment choice. You can then change your choice of investment funds at any time. This is usually free of charge. Please see the ‘Choosing your own investments’ guide for more details about the investment options available to you.

You may be able to choose the Self Invested Personal Pension (SIPP) option, if your employer has agreed to make this available to you. This allows you to invest directly through your own Personal Managed Portfolio in a range of investments including stocks and shares, government and corporate bonds, and collective investments. Please see the ‘Key Features of the New Generation Personal Pension – Self Invested Personal Pension (SIPP) Option’ document for more details.

Can I switch between investment funds?

Yes. We currently don’t charge you for switching to new funds. We will tell you if this changes.

In some circumstances we may delay the ‘cashing in’ or ‘switching’ of units for up to one month, or for funds invested in property, for up to six months while the property is sold. We may extend these periods:

- to match any period of delay, postponement, closure or suspension imposed by the fund managers
- if, due to exceptional circumstances, we believe it is in the best interests of all investors in the fund.

We won’t do this on your selected retirement date or on death.

For more information please see the Terms and Conditions.
When can I take my pension benefits?

What charges does Aviva take?

- We take an annual management charge (AMC) out of your plan value over the lifetime of your plan. We take the AMC to cover the costs of setting up the plan, ongoing administration and fund management. It may be higher for some investment funds than others. Please see the ‘Choosing your own investments’ guide for details of the AMC for each fund.

- For certain investment funds additional charges are payable. These are charged to cover expenses such as fees to auditors, trustees and valuers. These charges will change over time and are taken into account before the fund is priced. For the latest charges please ask us, using the contact details on page 10.

- You will receive an illustration which shows the charges for your plan. It also shows the effect charges and expenses have on reducing the value of your plan, based on the investment solution chosen by your employer, contribution levels and other information shown within it.

- If you transfer a previous pension arrangement into this plan, the AMC for that transfer amount may be higher or lower than that payable on other contributions for each fund. Please see your transfer illustration for more information.

- Please see the Terms and Conditions for details on how charges can change.

Does Aviva pay remuneration to an adviser?

- We may pay remuneration to your employer’s financial adviser for arranging this plan.

How are Aviva staff remunerated?

Aviva staff are salaried and they receive an annual bonus based upon the overall performance of the Aviva Group. Some members of our distribution team may also receive additional bonus, a proportion of which relates to their sales performance.

What are the charges on my plan?

How much will I get?

We will write to you nearer your selected retirement date to confirm your options. If you are over 50 you can access free impartial guidance on your retirement options from Pension Wise at www.pensionwise.gov.uk or 0800 138 3944.

Aviva staff are salaried and they receive an annual bonus based upon the overall performance of the Aviva Group. Some members of our distribution team may also receive additional bonus, a proportion of which relates to their sales performance.

What benefits are available to me?

This section explains what benefits are available and when. We will contact you approximately six months before your selected retirement date to give you more details.

When can I take my pension benefits?

- We set up your plan to provide benefits from your selected retirement date, which you choose at the start. You can change your selected retirement date at any time before you take your pension benefits. If you don’t make a choice, your selected retirement date will be your 65th birthday.

- You can start taking your benefits from your 55th birthday. You can start taking your benefits even if you are still working.

- If you have a protected pension age, or retire early because of ill health, you will normally be able to take your benefits before your 55th birthday.

- The latest age at which you can take your benefits under this plan is currently 75. Legislation allows you to delay taking your benefits until after age 75, with no upper age limit. If you wish to do this, you will need to transfer your plan to another pension provider before your 75th birthday.

- We will write to you nearer your selected retirement date to confirm your options. If you are over 50 you can access free impartial guidance on your retirement options from Pension Wise at www.pensionwise.gov.uk or 0800 138 3944.

How much will I get?

- When you are ready to take your pension benefits, the amount you get will depend on your plan value, the type of pension income you take and, if applicable, the annuity rates offered by the provider of your pension income at that time.

- Please see the illustration for an idea of what you might get. If you’ve not received an illustration, please contact us.

- We will send you statements each year to show how your plan is performing and the amount you may receive when you retire.

- You can also ask us for an up-to-date statement at any time.

How can I take my pension benefits?

- You will have a fund that you can use to provide pension benefits. There are currently several options available and when you take your pension benefits you should speak to your financial adviser for help in determining which options are most suitable for you. This is important as ‘shopping around’ could help you obtain a higher income. The options are set out below. You can choose more than one option.

A - Annuity

- You can normally take up to 25% of your plan as a tax-free cash sum and use the remaining amount to purchase an annuity, an insurance plan that will give you a guaranteed income for life, subject to tax. Please see the ‘What about tax’ section for further details. Alternatively, you can use all of your plan to purchase an annuity and not take any tax-free cash.

- An annuity does not have to be purchased from us. It is important to shop around as you may be able to secure a higher income.

- The amount of the annuity payable will depend upon a number of factors, such as the value of your plan, the type of annuity purchased, the provider selected, your age and your health.
● Your illustration shows the potential annuity you might get when you reach your selected retirement date.

**B – Lump sum**

- You have the option to take all or part of your plan as a lump sum.
- Under this option, 25% of the lump sum you take will be paid to you tax-free, with the balance subject to tax. Please see the ‘What about tax?’ section for further details.
- There is no minimum amount that you can take as a lump sum.
- If further contributions are to be paid into your plan or another money purchase pension scheme, your annual allowance will reduce. Please see the ‘What about tax?’ section for further details.

**C – Income Drawdown (also known as Flexi-Access Drawdown)**

- This option allows you to take income directly from your pension fund while leaving the remaining fund invested.
- You can normally take up to 25% of your plan as a tax-free cash sum and designate the remaining amount for Income Drawdown. Any subsequent withdrawals are taxed as income. Please see the ‘What about tax?’ section for more details.
- You can use all or part of your plan to move into Income Drawdown. We will start an Income Drawdown pot within your Group Personal Pension. There is no minimum amount you have to move into Income Drawdown.
- You can take income from your Income Drawdown pot as and when you need it and/or regular income on a monthly, quarterly, half-yearly or yearly basis. Regular and single withdrawals will be taken proportionally across all investments in the drawdown pot.
- In certain circumstances, we may need to delay transfers, switching of funds and payments (including tax-free cash and income payments). This could be as a result of adverse market conditions or where it leads to the unfair treatment of other investors. The delay may be up to one month for most funds or up to six months for funds fully or partly invested in property. In exceptional circumstances, this period can be extended. We will let you know if and why we need to delay transfers, switching of funds or payments.
- Your investments in the Income Drawdown pot will mirror your investments in the accumulation pot. These must be the same investments. It is not possible to tailor them to different investments. If you switch funds, the change will apply to your whole plan (both Income Drawdown funds and any accumulation funds you may have).
- If further contributions are to be paid into your plan or another money purchase pension scheme, your annual allowance will reduce if you take any flexi-access drawdown income in addition to your tax-free cash sum. Please see the ‘What about tax?’ section for more details. If you are invested in a with-profits fund, you will need to switch out completely before applying for Income Drawdown. You will not be allowed to invest in with-profits in the future.
- You can start Income Drawdown using your plan or alternatively transfer your plan to another pension provider who offers this. It is important to shop around as it could help you obtain better terms.
- It is not possible to transfer other Income Drawdown pots that you may have with other pension providers to this plan.

**Income Drawdown – Key risks**

- The value of your plan that remains invested can go down as well as up and is not guaranteed. You could get back less than has been invested.
- Your future pension income from your Income Drawdown pot is not guaranteed as the pot value depends on any income taken, investment performance and charges. Your pot can run out.
- If you take all or a significant amount of your pension savings from your Income Drawdown pot and have no other provisions, this may reduce your ability to provide a sustainable income or provide for dependants in the future.
- There is no guarantee you will get more income compared to the purchase of a guaranteed income through an annuity.

**With-profits**

If you are invested in with-profits, you need to read the information below carefully to understand what this means for you.

- You are not able to invest any of your Income Drawdown pot or accumulation pot in any of our with-profits funds.
- If you’re currently invested in with-profits you will need to switch your money to another fund at the time you move into Income Drawdown.
- We will add any additional bonus earned before the switch, but we may also apply a market value reduction.
- You will lose your with-profits guarantees when you switch out of with-profits.

**Income Drawdown – Charges**

- The charges covered in the ‘What are the charges on my plan?’ section cover your plan and Income Drawdown pot. If both pots are used, the charges will be taken proportionately across them.
- We do not currently charge for Income Drawdown. If this is to change, we will let you know.
Key Features of the New Generation Personal Pension

Income Drawdown – Can I change my mind about starting Income Drawdown payments?

- Yes. You have 30 days in which you can cancel your option to start Income Drawdown payments. Your cancellation period starts when you receive confirmation from us that your Income Drawdown pot has started. If you wish to cancel, you must notify us in writing at Aviva, PO Box 1550, Salisbury, SP1 2TW.
- You can’t cancel your decision to take tax-free cash from your plan, or your designation of funds into the Income Drawdown pot.
- If you decide to cancel you will have to return any income payment(s) to us within 30 days of your notification of your wish to cancel. Returned payments will be invested in the same fund(s) from which they were taken. You will receive the price(s) on the date of reinvestment.
- If you no longer wish to have an Income Drawdown pot with us, you can transfer it to another pension provider at any time. Alternatively, at any time you can use your pot to buy an annuity. The annuity income you are able to buy may be lower than would have been available to you before entering income drawdown.

D – Transfer

- You can transfer your plan to another registered pension scheme. Other registered pension schemes may allow additional options.

Information available to you

For information on the risks associated with all the available options, please see our ‘Making sense of your retirement options’ document.

Your retirement choices are some of the most important decisions you will ever need to make. We recommend you get guidance or advice to help you decide what to do with your pension savings.

- Pension Wise is a government service offering free and impartial guidance on options at retirement, to those over 50. This tailored guidance is available online, over the phone or face to face. Go to www.pensionwise.gov.uk or call 0800 138 3944.
- You can access free impartial guidance from independent organisations, such as the Pensions Advisory Service (TPAS) and Citizens Advice.
- The Money Advice Service publishes a free printed guide, ‘Your pension – it’s time to choose’, which is available on its website www.moneyadviceservice.org.uk
- A financial adviser will be able to make personal recommendations for you based on your own circumstances and financial objectives. If you don’t have a financial adviser, go to www.unbiased.co.uk., or we can put you in touch with one. A financial adviser may charge you for their services.

6 What else do I need to know?

What will happen if I leave my current employer?

- If you leave your current employer, you can keep your pension plan with Aviva. However, the range of funds available to you and the fund charges may be different. If you do leave, we will write to provide further information.
- Employer contributions will stop.

Can I transfer the value of my New Generation Personal Pension to another pension scheme?

- You can transfer the value of your plan to another registered pension scheme, including any new employer’s scheme, or to a qualifying recognised overseas pension scheme before you start taking your benefits.
- You can ask us for a transfer value quotation. This will give you examples of how much you could transfer to another plan depending on when you transfer.
- If you do transfer to another plan, you cannot continue to have contributions made into your New Generation Personal Pension.

What happens to my plan if I die?

- If you die before you take all your pension benefits, then your full pension benefits can be paid as a lump sum.
- The lump sum will be paid to your family members or any other parties we select, at our discretion, in accordance with the scheme rules.
- You can nominate who you would like us to consider making the payment to by completing a nomination form. We will take the nomination into consideration, but are not bound by it.
- If you have set up a trust for your plan, we will pay the lump sum to the trustees of that trust, who are then responsible for paying the trust’s beneficiaries.
- Please see the plan’s Terms and Conditions for more details.

7 What about tax?

This is a registered pension scheme and must follow HM Revenue and Customs (HMRC) rules on contributions and benefits. If these are not followed, you could end up paying more tax than you planned to. The following information is based on our interpretation of current tax legislation. Your tax treatment depends on your main place of residence as advised to us by HMRC and your other individual circumstances. The tax treatment may be subject to change in the future.
How will contributions into my plan be affected by tax?

- A registered pension scheme is one of the most effective ways to save money for retirement. This is because you get tax relief from the Government on the money paid into your plan.
- Each tax year you can get income tax relief on your contributions to all registered pension schemes as long as your total gross contributions are not more than the greater of your UK taxable earnings or £3,600 (2019/20). We will refund anything HM Revenue & Customs (HMRC) tells us is more than this.
- We will claim any basic rate tax relief you’re entitled to from HMRC and invest it into your plan. Currently this is 20% for the tax year 2019/20 so, for every £4 you pay in, this will add £1. For example, if you pay in £100 a month, tax relief will increase your contribution to £125.
- If you pay more than basic rate tax, you may be able to claim further tax relief through your self-assessment form or coding. Please see 'A guide to claiming tax relief over the basic rate' for more details.

Annual Allowance

- HM Revenue & Customs (HMRC) puts a limit on the total amount that can be paid into all your pension arrangements each year before a tax charge is payable. For the 2019/20 tax year this annual allowance is up to £40,000. Anything paid in above this may incur a tax charge.
- If you earn more than £110,000 in the 2019/20 tax year, your annual allowance may be reduced.
- If you flexibly access your pension savings, your annual allowance in respect of money purchase pension arrangements* is reduced for the current and future tax years. For the 2019/20 tax year this reduced annual allowance, known as the money purchase annual allowance (MPAA), is £4,000. The provider of the arrangement you have accessed will notify you if this applies.
  * A money purchase pension arrangement builds up a pension pot based on contributions from you and/or your employer.
- If you think you may be affected then we strongly recommend that you seek individual tax advice before investing. For more information about tax and in particular about the annual allowance, please speak to your financial adviser.

What are the tax implications while my money is invested?

- You will not incur a personal tax liability on any fund growth as long as it remains invested.
- Your fund will grow free of UK income and capital gains tax. Some investment returns may be received by the fund with tax credits or after tax deductions which can’t be re-claimed.
- Any investments a fund holds in overseas assets will be subject to the tax rules applicable to that country.

Lifetime allowance

- HMRC puts a limit, called the lifetime allowance, on the total amount that can be taken from pension schemes before a tax charge is payable. The standard lifetime allowance is £1,055,000 for the tax year 2019/20. Your lifetime allowance reduces each time you take benefits.
- If, when you take benefits, or at age 75 if earlier, the value of benefits being taken exceeds your remaining lifetime allowance, then the excess will be subject to a tax charge, known as the lifetime allowance charge.
- Your personal lifetime allowance may be higher than the standard lifetime allowance if you have been granted one or more types of protection by HMRC. You can find out more about the lifetime allowance on the HMRC website at www.gov.uk/tax-on-your-private-pension. If you think you might be affected then we strongly recommend that you seek individual tax advice. For more information about tax, please speak to a financial adviser.

How will my pension income be taxed?

- You can normally take a tax-free cash sum of up to 25% of your plan value.
- You may take the remainder as a taxable annuity/income. If you take part of your pension fund as a tax-free cash sum, you will get a smaller annuity/income.
- If you take all of your pension fund as a lump sum, you will not be entitled to any annuity or income.
- The taxable part of any lump sum and/or any pension you receive will be taxed through the PAYE system as pension income.
- The amount of tax you have to pay will depend on your income tax rate at the time the lump sum and/or pension income is paid.
- When you first start receiving an income, we may have to apply an emergency tax code as we won’t know your overall income. It may mean you pay too little or too much tax. If you pay too little, you will have to pay the difference. If you pay too much, you will have to reclaim it.

What about tax when I die?

On death before age 75;

- The payment of a lump sum will not normally incur any tax liability, although tax charges may apply if, when you die, the value of all lump sums paid from your pension plan(s) is more than the lifetime allowance (see above).
Key Features of the New Generation Personal Pension

- In some circumstances, the value of your benefits may also form part of your estate for inheritance tax purposes. On death after age 75;
- If you die on or after age 75, the payment of a lump sum will be subject to a tax charge. The amount of the charge will either be:
  - at the recipient’s marginal income tax rate (if paid directly to a dependant or beneficiary), or
  - 45% if paid to a personal representative or a trust.
  The beneficiary of a trust may claim the 45% tax charge paid on the lump sum death benefit as a deduction against their own income tax.

A financial adviser can provide further information.

Other information

How to contact us

- Remember, your employer will normally be your first point of contact.
- If you have any questions, you can:
  - Call us on 0345 602 9221 at the following times: Monday to Friday between 8.30am and 5.30pm.
  - We may record calls to improve our service.
  - Calls may be charged and these charges will vary.
  - If in doubt, please speak to your network provider.
- Email us at ngp.questions@dgaviva.com
- Write to us at Aviva, PO Box 1550, Salisbury SP1 2TW, United Kingdom

How to complain

- To make a complaint, please contact our Customer Relations Manager using details in the ‘How to contact us’ section above.
- To see our procedures for dealing with complaints, please ask for our complaints leaflet.
- If you are not satisfied with our response, you can contact the Financial Ombudsman Service using the details below:
  - Financial Ombudsman Service (FOS)
    - Exchange Tower
    - Harbour Exchange Square
    - London E14 9SR
    - 0800 023 4567 or 0300 123 9123
    - www.financial-ombudsman.org.uk
    - complaint.info@financial-ombudsman.org.uk
- Making a complaint won’t affect your legal rights.

Solvency Financial Condition Report

Every year we publish a Solvency and Financial Condition report which provides information about our performance, governance, risk profile, solvency and capital management. This report is available for you to read on our website at https://www.aviva.com/investor-relations/institutional-investors/regulatory-returns/

Compensation

This plan is covered by the Financial Services Compensation Scheme (FSCS). This means that if we are unable to pay claims/benefits because of financial difficulties, you would be able to make a claim. You are covered for 100% of the claim, without any upper limit. If your investments through us are held by an external fund manager, then you would not be eligible to make a claim for compensation under the FSCS in the limited circumstances where the external fund manager is unable to pay claims/benefits because of financial difficulties. For further information, please see www.fscs.org.uk or telephone 0800 678 1100 or 020 7741 4100.

Potential conflicts of interest

There may be times when Aviva Plc group companies or our appointed officers have some form of interest in the business being transacted. If this happens or when we become aware that our interests, or those of our officers, conflict with your interests, we will take all reasonable steps to manage that conflict of interest. We will do this in a way that treats all customers fairly and in line with proper standards of business.

Further details of our conflicts of interest policy are available on request. Where, despite all efforts to manage a conflict of interest, the conflict of interest cannot be prevented, we will disclose it to you before you commit to taking out this product or taking any investment action in relation to it.

Client categorisation

We categorise each investment customer as a ‘retail client’. This gives you the highest level of protection available under the Financial Conduct Authority (FCA)’s Conduct of Business Rules. If you would otherwise be categorised under FCA Rules as a ‘professional client’ or an ‘eligible counterparty’, then you may not have access to the Financial Services Compensation Scheme or Financial Ombudsman Service. Please contact your financial adviser if you require further details.
Terms and Conditions

- This document sets out the main points about the New Generation Personal Pension. It doesn’t include all the definitions, exclusions, terms and conditions.
- If you would like a copy of the full Terms and Conditions, please ask us.
- We have the right to change some of the Terms and Conditions. We will write and explain if this happens.
- Tax information is based on our current understanding of tax legislation.

Law and language

This plan is governed by the law of England and will apply unless your plan documents or Terms and Conditions show otherwise. Your plan documents, Terms and Conditions and all other communications will be in English.

Financial advisers

Where you have received information or advice from a financial adviser they will provide you with information regarding their identity, the capacity in which they are acting and their address for future communications.
